3. HAZARDS IDENTIFICATION

Generally considered not to be a hazardous material.

3.1 Eye: Solid or dust may cause irritation or corneal injury due to mechanical action. Fumes may be sufficient for causing eye irritation.

3.2 Skin: Essentially nonirritating to skin. Mechanical injury only.

3.3 Ingestion: Single dose oral toxicity is considered to be extremely low. No hazards anticipated from swallowing small amounts incidental to normal handling operations.

3.4 Inhalation: Dust may cause irritation to upper respiratory tract. At room temperature, exposures to vapors are unlikely due to physical properties; normal processing temperatures may generate vapors which may cause irritation if ventilation is inadequate.
4. FIRST-AID MEASURES

4.1 Inhalation: Move to fresh air if effect occur and consult a physician.
4.2 Skin Contact: Wash with water.
4.3 Eye Contact: Flush thoroughly with water, consult a physician
4.4 Ingestion: While ingestion of large enough quantities to cause health effects is unlikely, consult a physician if it occurs.

5. FIRE-FIGHTING MEASURES

5.1 Suitable Extinguishing Media: Foam, CO2, Dry Chemical or NFPA Class B extinguisher
5.2 Unsuitable Extinguishing Media: NA
5.3 Particular Hazards: Avoid inhalation of vapors.
5.4 Protective Equipment for Fire Fighters: Wear self-contained breathing apparatus.

6. ACCIDENTAL RELEASE MEASURES

6.1 Personal Precautions: Use of NIOSH-approved respirators is recommended when handling hot material. Gloved required when handling hot material. Wear safety glasses. Ventilation is needed when handling hot material.
6.2 Environmental Precautions: N/A
6.3 Cleaning Methods: Dispose of in accordance with state, local, and federal regulations

7. HANDLING AND STORAGE

7.1 Handling: The handling of pellets may cause nuisance dust to be formed. Take necessary precautions for protection of personnel.
7.2 Storage: Store in a closed container.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Local exhaust ventilation may be necessary for some operations.
8.1 Eye/Face Protection: Use safety glasses. If there is a potential for exposure to particles which could cause mechanical injury to the eye, wear chemical goggles. If vapor exposure causes eye discomfort, use a full-face respirator.
8.2 Skin Protection: No precautions other than clean body-covering clothing should be needed. Use gloved with insulation for thermal protection, when needed.
8.3 Respiratory Protection: In dusty atmospheres, use an approved dust respirator. For most conditions, no respiratory protection should be needed.
