MATERIAL SAFETY DATA SHEET
316 STAINLESS STEEL FOR MAGNUM BRACKETS AND BUCCAL TUBES

Document Number: MSDS-055  Revision Date: June 02, 2014  Material Type: 316 Stainless Steel

1–PRODUCT IDENTIFICATION
Trade Name: 316
Product Class: Iron Base Alloy

2–HAZARDOUS INGREDIENTS

** Has been recognized as a suspect carcinogen by NTP and IARC.

3–PHYSICAL DATA
Boiling Point (°F): N/A
Vapor Pressure (mm Hg.): N/A
Vapor Density (Air = 1): N/A
Solubility in Water: Insoluble
Appearance and Odor: Metallic gray in color – no odor.
Specific Gravity (H₂O=1): Approx. 8
Percent Volatile by Volume: N/A
Evaporation Rate: N/A
Melting Point (°F): Approx. 2700°F

4–FIRE AND EXPLOSION DATA
Flash Point (°F): N/A
Flammable Limits: N/A
Extinguishing Media: Use dry powder extinguishing agent.
Fire and Explosion Hazard: 1) Metal powder dispersed in air may cause fire and explosion. 2) Molten metals can ignite combustibles. 3) Good housekeeping must be maintained.

5–HEALTH HAZARD DATA
Primary Routes of Entry: Inhalation of dust or fume.

Under normal conditions, exposure to cast ingots presents few health hazards in itself. Thermal cutting and melting of ingots may produce fumes containing the component elements and breathing those fumes may present potentially significant health hazards. Extended (several years) exposure to iron dust or fume may result in signs of pneumoconiosis (i.e. siderosis). Physical examination of those exposed to iron dust have not indicated any disability.

Emergency and First Aid Procedures:
If irritation occurs, flush eyes, wash skin, remove to fresh air, as applicable. Contact physician.

6–REACTIVITY DATA
Cast ingot is stable at ordinary temperatures, however, caution should be taken with acids, bases, and oxidizers. Molten metal will react violently with water.

7–SPILL AND LEAK PROCEDURES
Solid ingot material will be recycled.
Residue from cutting or grinding should be swept or vacuumed and placed in suitable containers for disposal by local, state, or federal waste disposal regulations.

8–SPECIAL PROTECTION INFORMATION
Respiratory Protection: When exposure limits are exceeded, use proper, approved respirator.
Ventilation: Use a local exhaust when cutting, grinding, welding, or melting.
Eye Protection and Protective Clothing: Should be used when cutting, grinding, welding, or melting.

9–SPECIAL PRECAUTIONS
Use good housekeeping practices to prevent accumulations of dust and to keep airborne dust concentrations at a minimum. Avoid breathing dust or fumes.

PEL/TLV exposures should be kept below recommendations by OSHA and ACGIH to insure proper health protection of worker.

10–SARA SECTION 313 SUPPLIERS NOTIFICATION
This product may contain the following chemicals which are subject to the reporting requirements of Section 313 of the Emergency Planning and Community Right to Know Act of 1986 and of 40
